

JSC PROMARMATURA

possibility of joint business  
in Ukraine

Ladies and gentlemen

Promarmatura company expresses its respect and presents opportunities for joint business in Ukraine.

Promarmatura is the largest Ukrainian manufacturer and integrated supplier of pipe valves of different grades of ordinary and special steels and alloys

For more than 20 years of work Promarmatura proved itself a reliable partner, supplying its products to dozens of companies from Ukraine, Russia, Kazakhstan, Belarus, Bulgaria, Austria.

[The reference list on page 8](#)

All activities of the company Promarmatura certified for compliance with the international standard of quality management ISO 9001 and European standards and directives

[Permits and certificates on page 6](#)

The ownership of the company - a full cycle product plant, including metallurgical and forging production, the production of machinery products in Mirgorod Poltava region (the largest agricultural area for growing corn and the leading region of Ukrainian oil and gas production) and the city of Dnipropetrovsk region - Slavgorod (the largest industrial region), as well as business center and warehouse in Dnepropetrovsk.

[The structure of the company on page 4](#)

Our industrial, technological, logistical and human resources give us ability to expand existing business, developing new types of metallurgical and engineering products, and create almost new projects.

We can offer you are in our property warehouses and operating enterprises (including the land on which our facilities are located) with all their infrastructure for the creation of new businesses – up to a complete change of the profile of one of our plants.

We are ready to jointly master the production of various kinds of products, including the processing of agricultural products, organizing assembly production of trucks, agricultural machinery and various equipments for consumers in any region. We are ready to invest our property, including land, and own money in long-term projects with a stable and growing markets.

We are open for collaboration and cooperation and offer you our capabilities and 20 years of experience in organizing and doing business in Ukraine.

Yours faithfully

Igor Mezhebovsky  
General Director  
JSC PROMARMATURA

AlexanderChelyadin  
Board of Directors Chairman  
SC PROMARMATURA

**JSC ARMAPROM (Mirgorod Valve Plant),**

Mirgorod city, Poltava region

Foundry: Unique steel-smelting gas-oxygen refining converter (GOR) (analogue of AOD-process) with capacity up to 7tn of liquid metal, two arch smelt-furnaces with capacity up to 4,5tn, two double-crucible coreless-type induction furnaces with capacity 0,65tn. Form-making – by technology of Hardening Tar-Sand Process of company FAT (Germany) and shell mould casting (pre-coated sand).

Machine workshop. Quantity of machines - 780 units. Precision machining of parts is possible.

Design bureau. Modern system of three dimension designing SolidWorks, program complex SprutCAM allow developing of program controls for machining of parts with different level of complexity on 3, 4 and 5 coordinate machining centers with CNC for producing stamps, die molds, casting molds, prototype models, master-models, parts of machines and constructions.

Department for manufacturing of moulds. 5-coordinate machining center with CNC.

Certified factory laboratory. Mechanical and spectral laboratories. All kinds of non-destructive control, including dye penetrant inspection and magnetic powder flaw detection, ultrasonic and X-ray control.

Testing complex.

Welding department certified according to EN ISO 14732

The plant makes serial production of pipe-line valves DN 50-1200 and PN 10-450, accepts orders for manufacturing of pump bodies, engines, agricultural machines, parts for engineering, mining, metallurgical equipment, products for food, medical and chemical industries.

There is a possibility to cast ingots with weight from 1 to 5 tn for further forging.

Convenient logistic location:

Kiev-----250 km

L'vov /EU border/-----790 km

Kharkov /RF border/-----240 km

•Own rail-way branch

•Area of land property 107 557 sq m

•Area production work-shops 55 000 sq m

•Administrative and laboratory building / 4 storeys/– 4 113 sq m

•Own electric substations 110/6-10kV & 6/0,4 kV Power 24 850 kW.

•Natural gas, pressure 0,8 atm

•Water supply: central and autonomous

•Station of drain waters neutralization

**We offer: developing and manufacturing products of engineering, metallurgical and agricultural application, cooperation in creating new types of production on the facilities of the plant. We are ready to develop production of goods under producers' license.**

**PJSC «SLAVGOROD FITTING VALVES PLANT»**

Slavgorod city, Dnepropetrovsk region

Metal-forming press shop: forging press with load 1000 tn – 2 units, load 400 tn – 1 unit, load 250 tn - 2 units, block hammer with load 3,15 tn.

Machine workshop. Quantity of machines - 345 units  
Surfacing, assembling, painting departments. Testing complex.

The plant produces pipe-line valves DN 6-40 and PN 16-373 and also has serial manufacture of products for mining and engineering industries.

Convenient logistic location:

High-way Kharkov-Simferopol -----1 km

Zaporozhye -----30 km

Dnepropetrovsk-----70 km

•Area of land property ----- 51 900 sq m

•Area of production work-shops metal-forming ----- 7 800 sq m

•Administrative buildings -- 308 and 453 sq m

•Power delivered -----3 495 kW.

•Water supply: central and autonomous

**We offer: developing and manufacturing products of engineering, metallurgical and agricultural application, cooperation in creating new types of production on the facilities of the plant.**

**STORAGE COMPLEX,**

village Balovka of Dnepropetrovsk region

Has all necessary equipment for acceptance, storage and treatment of different cargoes, delivered by trucks and by railway. Has lifting and loading equipment, including loaders KAMATSU, auto-crane 12 tn, two travelling cranes 20 and 12 tn. The company has own park of vehicles— more than 50 units including truck-tractors DAF, RENO, MAN, trailers Kögel, auto-crane, elevated work platform. We are members of Association of International Road Carriers of Ukraine.

Convenient logistic location:

Dnepropetrovsk -----10 km

High-way Donetsk-Kiev-Lvov -----1 km

Kharkov /RF border/-----240 km

- Own rail-way branch line to the station
- On the territory of our complex there are 3 own rail lines and own shunting diesel locomotive
  - Sheltered ramp
  - Area of land property --140 000 sq m
  - Area of sheltered storage facilities ----47 000 sq m
  - Open metal storage - - - - - 6 000 sq m
- Exhibition ground for sales of agricultural machines 6 950 sq m
  - Power delivered 664 kW.

**We offer: free ware-house areas and open storage grounds for acceptance, storage and treatment of cargoes, organization of exhibitions and sales of machinery.**

**INDUSTRIAL SITE,**

Dnepropetrovsk city

- Land property with area 12 300 sq m
- Land property with area 17 116 sq m
- Production and administrative building 2 182 sq m
  - Production building 3 500 sq m
  - Power delivered 475 kW.

**We offer: organization of different types of industrial production, including minor metallurgical, on free areas of this object.**

## 8 The reference list of JSC PROMARMATURA

JSC "PROMARMATURA" carries out deliveries of the goods to the following enterprises

### In Ukraine:

#### Mining and iron and steel industry

PJSC "ArcelorMittal Kryvyi Rih"  
PJSC "ILYICH IRON AND STEEL WORKS"  
PJSC "EVRAZ - DMZ Petrovskogo "

In 2016 JSC «Promarmatura» was certified by BUREAU VERITAS as a producer of pipe-line valves in accordance with requirements of European standards and Directive PED 2014/68/EU for equipment working under the pressure with the right for using CE mark.

In the year 2016 certification center TUEV THUERINGEN (Germany) confirmed the validity of certificate of correspondence of JSC «Promarmatura» as a producer of forgings and castings made of carbon and stainless steel grades in accordance with requirements of European standards and Directive.

Besides, in May 2016 we successfully finished certification and qualification tests according to standards NORSOK M-650 (Edition 4) and M-630 (Edition 6) and obtained certificate of correspondence in system of NORSOK.

Products of our company are also certified for correspondence with requirements of Technical regulations TP TC 032, TP TC 010 and national system of certification UkrSEPRO (УкрСЕПРО).

System of quality management in JSC «Promarmatura» has been certified for correspondence with requirements of international standard ISO 9001 since the year 2003.
