

Dear Customers,

"Agro-Oven", one of the largest poultry producers in Ukraine, has initiated cooperation with foreign trade and production enterprises.

The factory works with a total closed production cycle from receiving hatching eggs and rearing to processing of poultry meat. Corporation "Agro-Oven" is one of the largest enterprises in Ukraine for the production of poultry meat.

The poultry processing started in 2007. The total production area is 7000 square meters. The company operates in the Dutch equipment «Mayn Food Processing», capacity is 60 ths.ton of poultry per year. Power of processing line is 7000 birds per hour.

Every year we increase production volumes and expanding the range to export. The development strategy of the company allows us to offer for export to the thousands of tons of frozen poultry meat per month. The main products for export are:

- whole bird (natural and injected)

individual package

packed on tray

- fillet (natural and injected)

weight

packed on tray

- wing (natural and injected)  
weight

packed on tray

- chicken back quarter (natural and injected)  
weight

packed on tray
