Details

Description

A German company from the Saarland region has gained a strong reputation by designing and integrating state of the art automated systems for the aerospace, automotive and defense industries.

The company's products have expanded over the years and include: Automated Guided Vehicles (AGV's), Chassis Marriage Systems, 3-D Wheel Aligners, Toe Automation, Headlamp Aimers, Fluid Fill Systems, Roll & Brake Testing Systems, Tire & Wheel Systems, Tire Loading & Installation, Caster / Camber Set Systems, Front Corner & Engine Dress Up, Motor & Transmission Assembly, Carpet & Cockpit Installation, Door & Seat Installation, and Urethane & Glass Systems.

The company is looking for partners in Eastern Europe able to manufacture special parts through turning, milling and welding for steel, aluminum and plastic under manufacturing agreements. They will order small quantities at once: 1, 5 or 10 similar parts.

Technical Specification or Expertise Sought

The potential partners should be equipped with modern and technologized machinery and have experience in the assembly sector. Well established management structures, skilled workers, quality control system and certifications are also necessary.
